PROFILE

From a young age, I had access to computers and my curiosity grew on their inner workings. When doing Computer Science, I found myself interested in software design and programming. I grasped the opportunity to be part of the Wits Graduate Internship Programme to continue to grow my skills and become a professional. In my spare time, I enjoy jogging and composing music.

WORK HISTORY

📅 01/01/2023 - 31-12-2023
